Pertussis Investigation Lexington and Richland Counties: Testing of Symptomatic Patients

Background Information

An outbreak of pertussis (whooping cough) is ongoing in several schools in Lexington and Richland Counties. Several cases have been laboratory confirmed and others by clinical diagnosis with epidemiologic links to confirmed cases.

Appropriate testing for symptomatic patients for pertussis

Based on classroom and other activity-related exposures (i.e. same small-group settings) pertussis prophylaxis has been recommended for many individuals who may have been exposed.

These individuals have been notified by letter from DHEC recommending they see their provider for prescriptions for the prophylactic medicine.

*The letter does **NOT** recommend laboratory testing for asymptomatic contacts.*

The CDC recommends that culture be performed when requesting PCR testing. Because laboratory capacity is limited, it is imperative that culture and PCR (polymerase-chain reaction) laboratory testing be limited **to only individuals with clinical symptoms of pertussis.**

Clinical symptoms of pertussis include at least two of the following with onset within 2 weeks (14 days) of the medical encounter:

- Paroxysms of coughing,
- Inspiratory “whoop”,
- Post-tussive vomiting,
- Difficulty breathing or feeling light-headed after coughing, and worsening cough at night,

Testing of symptomatic contacts is available via the DHEC Bureau of Laboratories.

Contact Donna Coyle RN, BSN @ 576-2749 or Dr. Gil Potter @ 576-2771 for testing and questions related to this investigation.

Information about Pertussis

Additional information regarding pertussis can be found at the following CDC websites:

- Current CDC case definition for pertussis:
 - www.cdc.gov/ncphi/dissn/nndss/casedef/pertussis_current.htm
- General information about pertussis:
 - www.cdc.gov/ncidod/diseases/submenus/sub_pertussis.htm
- Information related to pertussis surveillance and trend data:
 - www.cdc.gov/vaccines/pubs/pinkbook/downloads/pert.pdf

DHEC Contact Information for Reportable Diseases and Reporting Requirements

Reporting of outbreaks/clusters of pertussis is consistent with South Carolina Law requiring the reporting of diseases and conditions to your state or local public health department. (State Law # 44-29-10 and Regulation # 61-20) as per the DHEC 2004 List of Reportable Conditions available at:
http://www.scdhec.gov/health/disease/docs/reportable_conditions.pdf

Federal HIPAA legislation allows disclosure of protected health information, without consent of the individual, to public health authorities to collect and receive such information for the purpose of preventing or controlling disease. (HIPAA 45 CFR §164.512).

Regional Public Health Offices – 2008

Mail or call reports to the Epidemiology Office in each Public Health Region.

Region 1

Anderson, Oconee

220 McGee Road
Anderson, SC 29625
Phone: (864) 260-4358
Fax: (864) 260-5623
Nights / Weekends: 1-866-298-4442

Abbeville, Edgefield, Greenwood, Laurens, McCormick, Saluda

1736 S. Main Street
Greenwood, SC 29646
Phone: 1-888-218-5475
Fax: (864) 942-3690
Nights / Weekends: 1-800-420-1915

Region 2

Greenville, Pickens

PO Box 2507
200 University Ridge
Greenville, SC 29602-2507
Phone: (864) 282-4139
Fax: (864) 282-4373
Nights / Weekends: 1-800-993-1186

Cherokee, Spartanburg, Union

PO Box 4217
151 E. Wood Street
Spartanburg, SC 29305-4217
Phone: (864) 596-2227, x- 210
Fax: (864) 596-3443
Nights / Weekends: 1-800-993-1186

Region 3

Chester, Lancaster, York

PO Box 817
1833 Pageland Highway
Lancaster, SC 29721
Phone: (803) 286-9948
Fax: (803) 286-5418
Nights / Weekends: 1-866-867-3886

Region 3 (continued)

Fairfield, Lexington, Newberry, Richland

2000 Hampton Street
Columbia, SC 29204
Phone: (803) 576-2749
Fax: (803) 576-2993
Nights / Weekends: 1-888-554-9915

Region 4

Clarendon, Kershaw, Lee, Sumter

PO Box 1628
105 North Magnolia Street
Sumter, SC 29150
Phone: (803) 773-5511
